

## Project Design Phase

### Problem – Solution Fit Template

Date	15 February 2026
Team ID	LTVIP2026TMIDS65560
Project Name	Educational Organization Using ServiceNow
Maximum Marks	2 Marks

#### Problem – Solution Fit Template:

The Problem-Solution Fit simply means that you have found a problem with your customer and that the solution you have realized for it actually solves the customer's problem. It helps entrepreneurs, marketers and corporate innovators identify behavioral patterns and recognize what would work and why.

#### Purpose:

- Solve complex problems in a way that fits the state of your customers.
- Succeed faster and increase your solution adoption by tapping into existing mediums and channels of behavior.
- Sharpen your communication and marketing strategy with the right triggers and messaging.
- Increase touch-points with your company by finding the right problem-behavior fit and building trust by solving frequent annoyances, or urgent or costly problems.
- **Understand the existing situation in order to improve it for your target group.**

#### Template:

<p><b>1. CUSTOMER SEGMENT(S)</b> Who is your customer? I.e. working parents of 0-5 y.o. kids</p> <p><b>CS</b></p> <p>Define CS, fit into CC</p>	<p><b>6. CUSTOMER CONSTRAINTS</b> What constraints prevent your customers from taking action or limit their choices of solutions? I.e. spending power, budget, no cash, network connection, available devices.</p> <p><b>CC</b></p>	<p><b>5. AVAILABLE SOLUTIONS</b> Which solutions are available to the customers when they face the problem or need to get the job done? What have they tried in the past? What pros &amp; cons do these solutions have? I.e. pen and paper is an alternative to digital notetaking</p> <p><b>AS</b></p> <p>Explore AS, differentiate</p>
<p><b>2. JOBS-TO-BE-DONE / PROBLEMS</b> What jobs-to-be-done (or problems) do you address for your customers? There could be more than one; explore different sides.</p> <p><b>J&amp;P</b></p> <p>Focus on J&amp;P, tap into BE, understand RC</p>	<p><b>9. PROBLEM ROOT CAUSE</b> What is the real reason that this problem exists? What is the back story behind the need to do this job? I.e. customers have to do it because of the change in regulations.</p> <p><b>RC</b></p>	<p><b>7. BEHAVIOUR</b> What does your customer do to address the problem and get the job done? I.e. directly related: find the right solar panel installer, calculate usage and benefits; indirectly associated: customers spend free time on volunteering work (I.e. Greenpeace)</p> <p><b>BE</b></p> <p>Focus on J&amp;P, tap into BE, understand RC</p>
<p><b>3. TRIGGERS</b> What triggers customers to act? I.e. seeing their neighbour installing solar panels, reading about a more efficient solution in the news.</p> <p><b>TR</b></p> <p>Identify strong TR &amp; EM</p>	<p><b>10. YOUR SOLUTION</b> If you are working on an existing business, write down your current solution first, fill in the canvas, and check how much it fits reality. If you are working on a new business proposition, then keep it blank until you fill in the canvas and come up with a solution that fits within customer limitations, solves a problem and matches customer behaviour.</p> <p><b>SL</b></p>	<p><b>8. CHANNELS OF BEHAVIOUR</b> 8.1 ONLINE What kind of actions do customers take online? Extract online channels from #7</p> <p><b>CH</b></p> <p>Extract online &amp; offline CH or BE</p> <p><b>8.2 OFFLINE</b> What kind of actions do customers take offline? Extract offline channels from #7 and use them for customer development.</p>
<p><b>4. EMOTIONS: BEFORE / AFTER</b> How do customers feel when they face a problem or a job and afterwards? I.e. lost, Insecure &gt; confident, In control - use it in your communication strategy &amp; design.</p> <p><b>EM</b></p>		

## **Target Customers / Users**

- Students
- Teachers
- Administrative Staff

## **Problems Identified**

- Manual handling of student records and academic data.
- Delay in service request processing.
- Lack of centralized academic management system.
- Poor communication between students and administration.

## **Customer Needs**

- Easy access to academic information.
- Fast request handling system.
- Secure data management.
- Real-time updates and notifications.

## **Proposed Solution**

A centralized cloud-based educational management system that automates student records, course management, service requests, and communication using ServiceNow platform.

## **Value / Benefits**

- Reduces manual work.
- Improves efficiency.
- Faster service delivery.
- Better communication and data security.
